Push2Fix (P2F) - Fixing Elements P2F (Push-to-Fix) - Fixing elements for PCBs

Part no .: -40°C 80°C

Х

Description

Push-in fixing: for hole pattern in light fitting ø 4.2 +/- 0.1 mm and ø 4.3-4,8 mm in PCBs
CrNi and silicone materials ensure long life reliability
Suitable for Zhaga certified LED modules
BJB recommends to use modules with ø 4,3-4,8 mm fixing hole diameter
Due to manufacturing tolerances and tolerances required for thermal expansion, we recommend choosing the largest possible hole diameter
Eliminates potential damage from screw fixing due to low insertion force
Assembly without any additional tools possible
Solutions for Automation upon request
Removable from front

•	
Product name:	P2F - Push to Fix - Fixing element for PCBs
Total thickness (X):	2.4 - 2.7 mm
Key feature 1:	Reliable heat dissipation due to a constant pressure.
Key feature 2:	Quick assembly process improves production efficiency and reduces production costs
Color:	grey
Mounting method 1:	Push-in fixing for mounting PCBs
Weight:	2
Pkg.:	5000
